THE WOOD-MAXX™ ADVANTAGE

Wood-Maxx™ Elite

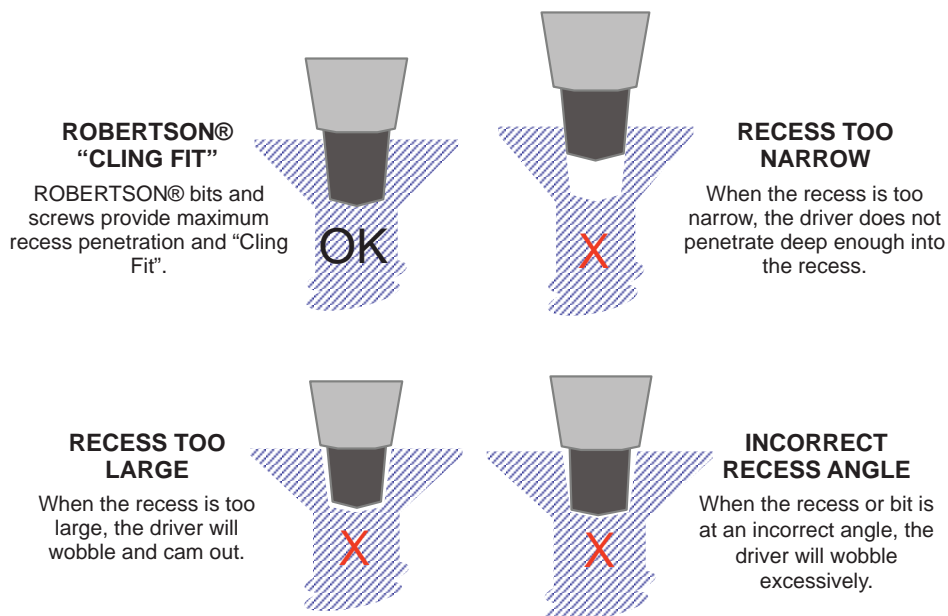

The Wood-Maxx™ Elite is the ultimate wood screw. It has been specifically engineered and designed for manufacturers of solid wood or melamine furniture and kitchen cabinets. It features a long Type 17 (T17) cutter for quick drilling into even the hardest of woods. The specially designed cutting thread combined with our long T17 cutter eliminates the need for pre-drilling into most species of wood and man-made materials. We have incorporated a very special zinc wax coating on all of our screws which reduces friction and stress. You will find that our square socket is deep for optimum driver bit penetration and performance. All of these features combined make the Wood-Maxx Elite the ultimate wood screw in the industry.

The Wood-Maxx™ Elite is designed with a long T17 which, combined with the aster cutting thread and 21°- 23° sharp point, allows the screws to be driven into even the hardest woods without pre-drilling a pilot hole.

The special Zinc Wax coating on the Wood-Maxx™ Elite delivers unmatched performance, reducing the torque required to drive screws. This result is a reduction in user fatigue, which in turn will greatly decrease the potential hazard of repetitive stress syndrome, or carpal tunnel, caused by the continuous driving of screws.

Single drive draw down in all types of wood. The Wood-Maxx™ Elite thread is designed to force the wood dust up and out of the hole, therefore, eliminating the need to back the screw out and re-drive it to achieve tight draw down.

The Original ROBERTSON® Fastening System

Insist on *Original* ROBERTSON® screws and driver bits.
It is the only way to ensure a proper "Cling Fit"

PRICING & SAVINGS

» The Wood-Maxx™ Elite is a premium product line. The important consideration when switching to the Wood-Maxx™ Elite is how much time and money the user will save. It offers greater efficiency, faster penetration, less waste and less strain and effort. The true savings achieved once you start on the Wood-Maxx™ Elite program are many times more than the price paid for the screws themselves.

COMPETITION

» No other screw manufacturer or screw importer has the complete package of features offered by the Wood-Maxx™ Elite
» No other screw manufacturer or screw importer has focused and designed its screw program specifically for the wood working industry.

MANUFACTURING

» The Wood-Maxx™ Elite program is manufactured to the highest quality standards possible by Robertson® Inc.

WOOD-MAXX™ FEATURES & BENEFITS

Wood-Maxx™ Elite

A complete screw program designed exclusively for the woodworking industry

The **ONLY** Program Offering

- **Flat Head with Nibs**

- » Aid in the countersinking of the screw.

- **Smooth Shank**

- » Allows for better draw down.

- **Zinc Wax Coating on all Screws**

- » A special process unique to the Wood-Maxx™ Elite that eliminates friction almost completely

- **Wood-Maxx™ Elite Lo-Root® Thread**

- » Provides maximum holding power.

- **Unique Aster Cutting Thread**

- » No more pre-drilling
- » No more splitting of wood or MDF saving you time and money
- » Superior cutting and driving

- **Exclusive Long Type 17 Cutter**

- » Much easier wood penetration and much quicker drilling time.
- » Less stress on hands, arms and equipment

- **All #6 Wood-Maxx™ Screws have a #2 Square Drive**

- » No need to stop and change driver bits
- » Saves time and money

- **Installation Screws Epoxy Coated (not painted)**

- » No paint chipping or stripping
- » No clogging of driver sockets
- » Available Colours: White, Hard Rock Maple & Chocolate Pear

- **Bulk Bucket and Grab Handle Jars**

- » Convenient transparent buckets and jars with grab handles
- » Free 2" driver bit included in each jar

WOOD-MAXX™ FLAT HEAD #5, #6, #7

#5 Flat Robertson® Wood-Maxx™

APPLICATIONS

5 Gauge

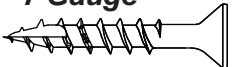

- Generic drawer slides (subject to Mfg. hole dia. specifications)
- 3/4" length ideal for piano hinge applications

6 Gauge

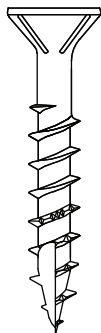

- 1/2", 5/8" & 3/4" ideal for drawer slides, euro hinges & hinge plates
- 1-1/2", 1-3/4" & 2" ideal for European box construction
- 2" also ideal for stair risers

7 Gauge

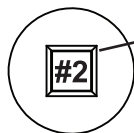

- For use on all undermount soft close drawer slides
- **HIGHLY** recommended for BLUM style Tandem undermount soft close slides

WOOD-MAXX™ FLAT HEAD #8, #9, #10

Flat 4lug Robertson® Wood-Maxx™ T17

- Long type 17 shank slot cuts into material reducing splitting .
- 4 counter sinking lugs under the head.
- Special zinc wax coating offers less friction and stress on materials and the user.
- 2-1/2" up to 4" are offered as a 9 gauge (rather than 8 gauge) for improved shear strength.

All #8 & #9 gauge screws feature a #2 Robertson™ Drive (Our #10 Flat heads feature a #3 drive)

APPLICATIONS

8 Gauge

- Multi-purpose wood screw.

9 Gauge

- Multi-purpose wood screw.
- Offered as a 9 gauge rather than an 8 gauge for INCREASED shear strength.

10 Gauge

- Stair & Railing screw.
- Multi-purpose wood screw.
- HIGHLY recommended for high torque and shear strength applications.

INDUSTRIES

- Construction
- Flooring
- Window & Door
- Kitchen & Bath Cabinets

WOOD-MAXX™ FLAT HEAD KITS

Wood-Maxx™ Fastener Kits

Fasteners are compartmentalized and secured in individual sections and clearly labelled to prevent confusion and keep things organized. With SWH kits you will always find the right screw for the job.

APPLICATIONS

#8 Round Washer

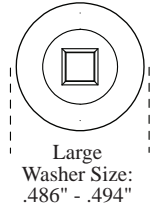

- Coarse thread recommended for soft wood applications
- Kitchen cabinet & bathroom vanity installation
- Epoxy head paint provides a clean finish to your project, and prevents the use of cover caps to hide screw heads
- 1-1/4" is the most common length for pocket hole applications

WOOD-MAXX™ LARGE ROUND WASHER #10

LARGE Round Washer Robertson® Wood-Maxx™ T17

- Large washer provides a larger bearing surface for greater draw down.
- Special zinc wax coating offers less friction and stress on materials and the user.
- Long type 17 shank slot cuts into material reducing splitting.

CR104LRWHT17-CHPR	10 x 4"	#2	Z/W-CHOCO PEAR	800	\$94.29 / cs	150	\$26.94

APPLICATIONS

#10 Large Round Washer

- Coarse thread recommended for soft wood applications
- Kitchen cabinet & bathroom vanity installation
- Epoxy head paint provides a clean finish to your project, and prevents the use of cover caps to hide screw heads
- **HIGHLY** recommended for high torque and sheer strength applications

WOOD-MAXX™ ROUND WASHER KITS

Wood-Maxx™ Fastener Kits

Fasteners are compartmentalized and secured in individual sections and clearly labelled to prevent confusion and keep things organized. With SWH kits you will always find the right screw for the job.

Which machine screw length is required?

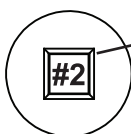

In general, the screw length(s) used should be 1/4" longer than the thickness of your cabinet door or drawer front material.

BREAK-AWAY MACHINE SCREWS & KITS

Truss Robertson® BREAK-AWAY Machine Screw

Breaks at 1/4", 1/2", 3/4" & 1"

SWH Machine screws feature an Original Robertson® #2 drive, as opposed to a square slot combo drive which are generally available. The #2 Robertson® drive provides a better bit fit, as well prevents stripping of the screw.
